

What's it all about?

Contributed by Anita Dobin

What is a professional organizer?

A professional organizer creates customized solutions designed to help others get organized. Organizers provide ideas, information, solutions and systems which restore order and help maximize usable space. Clients find a renewed sense of balance and gain more control over their environment leading to reduced stress and increased productivity.

How does Super Organizing Solutions work?

Our professional organizing service restores order to your home or office through easy, practical and workable systems and suggestions. We work one-on-one to provide a personalized program suited to each individuals unique needs.

SOS covers southern Connecticut, White Plains, Tarrytown and New York Metro region with a complete range of organizational, redesign and home staging services. Our hands - on personalized approach works through the process of uncluttering, organizing and paper management.
